

LC Discrepancy Report

TRDR Hub · LCopilot — pre-presentation examination · SAMPLE (REDACTED)

LC REFERENCE	VERDICT	FINDINGS	GENERATED
ILC/XXXX/2026/REDACTED	DISCREPANCIES FOUND	6	03 Jul 2026 06:45 UTC

Reviewer note

Two critical discrepancies (findings 1 and 2) would very likely cause refusal under UCP 600 Art. 16 — fix these before presenting. The unsigned invoice and the inspection date are also refusal-grade but quick to cure. Names, ports and references in this sample are redacted from a real review.

Critical (2)

Invoice total does not equal the sum of line items

Rule ARITHMETIC-1 · Doc: commercial_invoice

LC clause	45A: TOTAL VALUE USD 61,700.00 CFR REDACTED PORT
Expected	Sum of quantity x unit price across all line items = stated invoice total
Found	Line items total USD 60,950.00; invoice states USD 61,700.00 (difference USD 750.00)
Suggested fix	Reissue the commercial invoice with the total corrected to the line-item sum, or correct the unit price on item 3 if the stated total is the intended contract value.

Bill of lading not marked CLEAN ON BOARD

Rule UCP600-27 · Doc: bill_of_lading

LC clause	46A: FULL SET OF CLEAN ON BOARD OCEAN BILLS OF LADING
Expected	An on-board notation with no clause declaring a defective condition of goods or packaging
Found	B/L carries 'SHIPPED ON BOARD 12 JUN 2026' but no CLEAN notation; margin remark 'two cartons re-taped' present
Suggested fix	Request the carrier reissue the B/L without the defective-condition remark, or obtain the applicant's written waiver before presentation.

Major (2)

Commercial invoice is unsigned

Rule ISBP821-A35 · Doc: commercial_invoice

LC clause	46A: SIGNED COMMERCIAL INVOICE IN 3 ORIGINALS
Expected	Manually signed invoice, as the credit expressly requires a signed invoice
Found	Presented invoice bears a printed name block but no signature
Suggested fix	Have the authorised signatory sign all three originals before presentation.

Inspection certificate dated after shipment date

Rule UCP600-14 · Doc: inspection_certificate

LC clause	47A: PRE-SHIPMENT INSPECTION CERTIFICATE ISSUED BY [REDACTED]
Expected	Inspection performed and certificate issued on or before the B/L on-board date (12 Jun 2026)
Found	Certificate states inspection date 14 Jun 2026 — two days after shipment
Suggested fix	Obtain a corrected certificate showing the actual pre-shipment inspection date, or a replacement inspection consistent with the credit terms.

Minor (1)

Packing list lacks carton-wise breakdown

Rule ISBP821-M2 · Doc: packing_list

LC clause	46A: DETAILED PACKING LIST IN 2 ORIGINALS SHOWING CARTON-WISE PACKING
Expected	Per-carton contents, net weight and gross weight as the credit requires
Found	Packing list shows totals per style only; no carton-level detail
Suggested fix	Reissue the packing list with the carton-wise breakdown the credit asks for.

Advisory (1)

Insurance certificate presented under CFR terms

Rule CROSSDOC-INS-1 · Doc: insurance_certificate

LC clause	45A: ... CFR REDACTED PORT (Incoterms 2020)
Expected	Under CFR the buyer arranges insurance; the credit does not call for an insurance document
Found	An insurance certificate was included in the presentation set
Suggested fix	No action required by the bank, but presenting uncalled-for documents can invite scrutiny — consider omitting it.

Advisory document pre-check — not legal advice. This report reflects an automated examination against UCP 600 / ISBP 821 reviewed by a specialist. It does not constitute a bank's determination of compliance.
